S Lucas signs select deal for ArmourColor luxury wall finishes

Joint collaboration with Armourcoat to build a successful product and service for the UK decorative markets

Specialist painting contractor S Lucas has joined forces with Armourcoat to further the successful development of its ArmourColor range of luxury decorative wall finishes. S Lucas will become the principal applicator of the range to the UK commercial decorations market.

The three ArmourColor water-based finishes made by Armourcoat all meet the highest safety and environmental standards. "Escenta" offers a multi-colour effect with dramatic textures and tones; "Perlata" shimmers and sparkles; "Tactite" has a warm and inviting "soft touch" textured finish.

S Lucas has been working closely with Armourcoat since 1997 when the two companies first came together as contractors on the Bluewater Shopping Centre. S Lucas has successfully applied ArmourColor on several of its major decorating projects including the Heron Tower in the City of London and for Mercedes Benz in Edinburgh.

Danny Lucas, Managing Director of S Lucas, said: "As a leading applicator of specialist paint effects and finishes we recognise the great advantages of ArmourColor to our clients. The finishes are always stunning yet durable and well suited to areas subject to heavy use such as hotels, shopping centres, airports and railway stations. Surface areas are much more easily repaired than other coverings and cost savings for clients are significant."

Daniel Nevitt, Marketing Director of Armourcoat said: "We have a close working relationship with S Lucas and we will together provide a quality product and service to the commercial and residential decorative markets. This collaboration is great news."

Note to editors

S Lucas is a well established specialist painting contractor to the construction industry. It provides a complete range of decorative and protective coatings services including general decoration, spray applied finishes, protective and hygienic coatings and special paint effects. It has the strongest commitment to quality, reliability, safety and environmental considerations. It has a blue-chip client list and works on large scale structures such as Heathrow Terminal 5 and The O² as well as prestigious residential contracts. It has recently launched a sister company, Lucas Fit Out, to provide a full fit out service to construction industry clients and contractors.

Armourcoat Ltd celebrate 25 years of creative excellence in 2009, from its beginning in racket sport impact plasters to luxurious polished and textured plaster wall finishes. From the manufacture and specification of these specialist products, the company has a wealth of experience and technical expertise in the supply of high performance wall finishes.

Since 2001, Armourcoat has concentrated on the development and expansion of its export operation and product divisions. This reflected a new direction for the Armourcoat business, evolving from a specialist supplier to a global decorative coatings Group. The result is a broad-based company with an enviable product range operating in all market sectors in over seventy countries around the world.
